Decision details

Legal Clarity Limited (the firm) is a licensed body whose offices are at Charles House, 148-149 Great Charles Street, Birmingham B3 3HT.

Short summary of decision

The firm was fined for failing to ensure it had relevant documentation in place to prevent activities relating to money laundering and terrorist financing as required by The Money Laundering, Terrorist Financing and Transfer of Funds (Information on the Payer) Regulations 2017 (MLRs 2017).

Facts of the misconduct

The firm carries out commercial conveyancing work and is therefore an 'in scope' firm for the purposes of the MLRs 2017.

In February 2024, the SRA's anti-money laundering (AML) proactive supervision

team carried out a desk-based review of the firm to assess its compliance with the MLRs 2017. In his outcome letter the AML Officer

told the firm that he had identified a number of compliance failures, including the firm not having compliant policies, controls and procedures (PCPs) or a client and matter risk assessment process in place, and consequently, not performing and documenting risk assessments on its 'in scope' files.

These concerns led to a referral to the SRA's AML investigation team. The firm was provided with guidance and promptly took steps to rectify the issues and bring itself into compliance with the MLRs 2017.

It was found that the firm:

- Between March 2018 and March 2024 failed to establish and maintain PCPs to mitigate and manage effectively the risks of money laundering and terrorist financing, identified in any risk assessment, pursuant to Regulation 19(1)(a) of MLRs 2017.
- In the six live files reviewed, failed to sufficiently assess the level of risk, as required by Regulation 28(12) and Regulation 28(13) of the MLRs 2017.

In doing so, to the extent that the conduct took place between 1 March 2018 and 24 November 2019, the firm breached outcomes 7.2 and 7.5 of the SRA Code of Conduct 2011 and Principles 6 and 8 of the SRA Principles 2011, and to the extent that the conduct took place from 25 November 2019 onwards, the firm breached Principle 2 of the SRA Principles 2019 and Paragraphs 2.1(a) and 3.1 of the SRA Code of Conduct for Firms 2019.

Decision on sanction

It was decided that a financial penalty was an appropriate and proportionate sanction.

The firm was directed to pay a financial penalty of £18,802 and ordered to pay costs of £1,350.

This was because the firm's conduct was serious by reference to the following factors in the SRA Enforcement Strategy:

- The findings relate to breaches of the MLRs 2017, which protect the public from the serious consequences of money laundering and terrorist financing. The associated risks were heightened given the high proportion of the firm's work that was 'in scope' of the MLRs 2017.
- The firm failed to have proper regard to the SRA's guidance and warning notices which explained what was required, the risks that failure to comply with AML requirements posed, and the regulatory consequences of failing to comply.
- Its conduct was a breach of its regulatory obligations which persisted for longer than was reasonable.

- The firm was responsible for its own conduct which was serious and had the potential to cause harm to the public interest and to public confidence in the legal profession.
- Any lesser sanction would not provide a credible deterrent to the firm, and others. A credible deterrent plays a key role in maintaining professional standards and upholding public confidence.

In view of the above, the firm's conduct was placed in conduct band C which has a financial penalty of 1.6% to 3.2% of annual domestic turnover. The firm's conduct was placed at band C2 (2% of annual domestic turnover).

The following mitigating factors were considered:

- The firm made early admissions of its breaches of the MLRs 2017.
- The firm co-operated fully with the SRA's investigation.
- There was no evidence that harm had materialised as a result of the misconduct.
- The firm had taken prompt steps to bring itself into compliance with the rules.

The financial penalty was reduced by 40% in recognition of these factors.
